# CURRENT Diagnosis & Treatment Gastroenterology, Hepatology, & Endoscopy (LANGE CURRENT Series)

## Synopsis

The most practical, authoritative guide to managing digestive and liver diseases A Doody's Core Title ESSENTIAL PURCHASE for 2011! "I found this book contemporary and well written, with knowledgeable authorship and recommend it for a handy reference for students, primary care providers and in a busy practice, but not for detailed evaluations. It certainly is worthwhile spending the \$69.95 to have it as a handy reference on the shelf of practitioners."--Journal of Clinical Gastroenterology Authored by expert physicians at Harvard Medical School and Brigham and Women's Hospital, CURRENT Diagnosis & Treatment: Gastroenterology, Hepatology, & Endoscopy offers a streamlined, templated presentation that simplifies the diagnosis and medical management of digestive and liver diseases. Clinically relevant, up-to-date coverage of digestive and liver disorders, and related medical and surgical procedures, including endoscopy: High-yield coverage of the entire spectrum of gastroenterology and hepatology, from stomach and esophageal to pancreatic and liver disorders Complete review of advances in diagnostic and therapeutic endoscopy • bulleted lists deliver instant guidance on identifying both common and rare digestive disorders Over 90 full-color endoscopic and other images of GI disorders Over 50 radiographic images clarify the use of the many currently available imaging techniques Key information from related fields, including GI surgery, and subspecialties such as liver transplantation, bariatric surgery, inflammatory bowel disease, and motility disorder

## Customer Reviews

Editor Norton J. Greenberger, MD Clinical Professor of Medicine, Harvard Medical School Senior Physician, Division of Gastroenterology, Hepatology and Endoscopy Brigham and Women's Hospital Boston, MA Associate Editors Richard S. Blumberg, MD Professor of Medicine, Harvard Medical School Chief, Division of Gastroenterology, Hepatology and Endoscopy Brigham and Women's Hospital Boston, MA Robert Burakoff, MD, MPH Associate Professor of Medicine, Harvard Medical School Clinical Chief of Gastroenterology, Division of Gastroenterology, Hepatology and Endoscopy Brigham and Women's Hospital Boston, MA

In preparation, I used garlic, drank juice (vit C), had ice cream (vit D et al and acidosis and Ca, plus, plus...) went for a walk and drank ionized water, then Pelligrion, other days Perrier....and ate Jello and some Yaourt...not on the same day some were praiers....and well had eaten son vit B fruits and the vegetables turn into gels like jellatin in your estoomuch...what we do for GI Tract Health and Hip health and even Soc-Hops can do a number on your cawl Caneous (well, we eat the candy cane during Christmas or they volunteer at the hospital or they cut your hair...)...and talon....hehe

Was not what I was expecting. It is mainly only on endoscopy. Years ago (1996 or so) Lange had an excellent Current Gastroenterology Diagnosis & Treatment book, that's what I thought this was. It is not.I thought this was the updated version of CGDT.So this is not helpful in management, only on endoscopy findings.

great

Definitely a great resource to have in the office. Concise and informative. Definitely a great purchase!
