If I could, I would give this book a 6 star rating! I have never been so happy with a cook book! It has changed my life, seriously! From lamenting what I should cook and creating fairly uninspiring dished ( mainly for myself), I now effortlessly create gourmet lunches and dinners! ( note: I am NOT getting paid to write this review!). I am a vegetarian, but I can see that a small portion of meat could go with the dishes. I don't find that necessary, because the dishes are filling and delicious. I love the way the book offers recipees for the 4 seasons, as well as a section called Every Day Recipees. Every season has its own spice mix and they are delightful to put together. The colors, the yellow, browns and oranges are so inviting! The spices are not hot. They just add a wonderful and interesting flavor to the dishes and I bet they are very healthy! Th recipees are very easy. I'd say the average time it

takes to cook a meal is maybe 30 minutes, less once you've made them a few times. They are not at all complex and all have ingredients that are easy to find in a grocery store. I've effortlessly increased the amount of vegetables eaten by multitudes. The only minor criticism I have of the book is that the index is very incomplete and it is hard to search for dishes. But I made a list of all my favorites, including many wonderful drinks and desserts, with the page number and that works well. At least 4 of my friends are cooking entirely from this book, too and are equally happy with the recipes. If you are at all attracted to this kind of cooking, you won't regret buying this book!

(note: I am Patocaster's wife writing this review) This is the perfect Ayurveda Cookbook for every day meal planning. Kate has organized the basics, principles and theory to practice of Ayurveda cooking, along with the lists of ingredients, with spices and meals for each season. But first she has a section on Everyday meals for breakfast, lunch, and dinner that are foundational and simple for every day eating. I have been looking for my next Ayurveda cookbook and this is put together so well, so complete, and intuitive to traverse! Upon purchase, I sat down and read it cover to cover. I put page tags on the meals that sounded the most appealing, reviewed them all a second time and planned our week menu. I made sure we had all the ingredients in the house, and set about making meals every day this past week. !WOW! ...just this morning I baked the Cranberry Butternut Muffins~ Phenomenal! First I baked a butternut squash with butter and drizzle of maple syrup at 400 degrees for 50 minutes. Then put together 1/2 cup of the warm butternut squash & Almond meal (instead of flour) along with coconut oil, maple syrup, 2 eggs, etc filled 6 muffin baking cups, with sprinkles of shredded coconut pg 201! For lunch I whipped up the Red Lentil Pate with Basmati Rice wrapped in collard green leaves\* I find I am sitting down reading it again, planning next week's meals. Excellent work, Kate O'Donnell!\* Thank you!\*

This book served my purpose. It is in depth so like other comments if you're just looking for a simple ayurvedic recipe book without all of the extra info then this isn't for you. There is A LOT of useful information in it though. It's a nice book to sit down with if you're serious about ayurvedic integration. I would recommend it!

Got this for my brother as a gift! He was completely thrilled with it and can't wait to use it.

I am taking some courses in Ayurveda and purchased this book to learn new recipes

Great recipes, looking forward to her new book.

Already gave away two copies!

This is a fantastic cookbook. It is beautiful, well-organized, and informative with easy recipes that are appealing and light up the eyes and taste buds. Far more than I anticipated for the price. Excellent value for anyone wanting to utilize a system that works.
