Stitched: Book 8.5: A Rylee Adamson Novella

Synopsis

I love Rylee and this struggle she has that goes back and forth is heart wrenching and exhilarating at the same time. Shannon has, once again, nailed this one to the awesome tree! I can't wait for the next instalment! - Paging Through the Days From HiJinks Ink Publishing and Shannon Mayer comes "Stitched" a novella in The USA Today Bestselling RYLEE ADAMSON NOVELS. With over 1.5 million books sold, Shannon Mayer proves once again she can dominate her genre right out of the gate. "My name is Rylee, and I am a Tracker." When children go missing, and the Humans have no leads, I'm the one they call. I am their last hope in bringing home the lost ones. I salvage what they cannot. When the dust settles, my heart feels as though it will never be pieced back together. But there are too many lives riding on my ability to function at my best. So I push through. And I find that I still have some fight left in me. Now I have one last task before I can rest: to find the simple ingredients of a spell. A spell that will help heal much of my wounds. But it is not only my injuries that I have to stitch closed. My sister's wounds have broken open . . . and perhaps most surprising of all so do another vampire's. Faris.

Customer Reviews

Once again, Shannon fills in the chinks in the story with the most exquisite details, "character development" that gives us more insight into what makes all of our favorite characters what they are, how they tick, and how they will have the courage to fight the battle that looms in their not-too-distant future. Plus, we get just a few little tidbits about what is to come and how this whole story might just play out. Not enough to spoil, but just enough to let us know that she has a plan for finishing the story, and it might not end exactly as you originally thought. We even get to meet a few new characters, most notably a snow leopard named Peta (I can't tell if the acronym-as-name is intentional or not, I may have to re-read to figure that out). The story is exactly what a .5 should be; an interlude, an intermission in the actual storyline, a short story that is as much a part of the storyline as it is not. A side-story. I wouldn't call it a back-story, but I think side-story is a good name for it. All in all, a very engaging (albeit brief) interlude.

...the immortal words of Alex the half transitioned werewolf. I didn't know whether to laugh or cry as I read this novella. Miss Mayer, you've got talent and a whole load of guts! In this short story 8.5, Rylee is hurting, but she is still as sharp as ever. This was a fast paced story of dealing with grief but letting love into your heart at the same time. I'm not going to spoil anything, so let's just say, I look SO forward to the next book, Waking Darkness. Here's a summary of this teaser featuring my favorite character: Rylee, after some intense preparations will be ready and rested to take on the Destroyer. She has to heal. She has to morn. She must make deals with new mystical characters, and make peace with old enemies...That's all I can say. This novella just reminded me how brassy and cool Rylee truly is. And that mouth of hers!!?? Lol! I love it!Way to go Miss Mayer! Your juggling the new series coming out with Lark the elemental (Recurve) you have Gluttony in the works, AND Rylee is getting ready for the fight of her life! Wow. I don't care if I sound shallow or trite, you are THE definition of AWESOME.

This is a must read, if you are reading the series. It is not a side story or an interlude while you wait for the continuation of the saga.I normally read much more intense and deeper fantasy novels, but this is a great read. I read it in one day with interruptions from the doctors office, and the family, and one meal. It has been a long time since that happened to me, and I have been reading fantasy and

sci-fi for over 55 years. Mayer builds characters you just have to feel with, they are people that draw you into their story, even (most) of the bad guys. Some of them are not in this book, but it looks like they will all come together in the next one, which by 's note, will be out in April of 2015, which I have already pre ordered..it would be pointless to talk about the people. If you are into the series, you have already read 7 books. If not, DO NOT Read this, go to book one. It is a wild ride worth taking. Download them all onto your Kindle and go to the beach for a week.

Rylee is often crass, prickly, vulgar and a pistol. She fights for the underdog and those she loves. In this novella Rylee leaves behind those she loves to heal herself and bear her child and grieve for the death of her love, Liam. In the process she matures and learns love is the strongest power of all. Several old and a few new characters surround Rylee. All know she must ultimately fight the demon Orion to save the world and her loved ones. No fate is certain yet she goes forward toward whatever fate has in store. An excellent transition from the battles of the previous books. Always a fascinating read in this world of magic and demons and betrayal and loyalty. Great characters to hate and to care about.

I've read 1-9 including all the shorts and this is one of the few series that I've re-read, and will re-read again; one of the few that I'm taking the time to leave a review for. The character development and interactions are superb, as is the world development. Not only are the main characters well done, but all the secondary characters are amazing. I adore all of them good and bad: Alex, Dox, Doran, Milly, Feris, etc etc. The plot is well done, and the subplots don't take away or confuse the main story line. Absolutely worth your time to read!

Book ReviewStiched (Rylee Adamson Series Book 8.5)Shannon Mayer5 stars AGAINThis book I believe was a REQUIRED read before 9!Anyone who has started this series knows this isn't for the faint of heart. There is allot of stress, death, fighting, and moral upheaval. People die, yes the protagonists die, and often. There are a group of them. BUT...that is what I truly like about this series. This is about an apocalyptic situation. She swears, she is a warrior, and is mad that she and only she is the one who is sent on this earth to kill the demon who is bringing the world to an end. However, she does have a group (her family, as motley as it may be) that she battles with who help to secure her spot in the end war. No person is safe, and they each have come to terms with the fact SHE and SHE ALONE is the one who MUST be saved to face Orion in the final battle. 8.5 is a Novella, maybe 150 pages at that to capture her time giving birth to her baby.Rylee takes up space

in a safe haven far away where she has taken her best friend's turned evil(ish) baby, and herself, now that her mate has died to close the veil. She knows she is now on her own to birth this child. She didn't even know she was pregnant. The crappy part is that if she has the baby to term, she will spend just mere weeks with this child before she is to battle Orion. This poses a massive issues. How does she train? How does she leave her baby? How does any of this happen when she has nobody to care for her baby? Where will she go? It doesn't take much time for her to figure out all that she has to do.
