Building The Great Wall Of China: An Interactive Engineering Adventure (You Choose: Engineering Marvels)

Synopsis

You are living in ancient China, and the Great Wall is an important part of your life. Will you: Be a peasant forced to work on the first emperor's wall? Be a bricklayer working on the wall during the Ming Dynasty? Be an architect who designs the Ming towers and battlements? Experience situations taken from real life. YOU CHOOSE what you'll do next. The choices you make will either lead you to success or to failure.

Customer Reviews

Gr 5-8-These "Choose Your Own Adventure"-style books invite readers to assume roles as architects and builders of sites that set historical records in their magnitude. A bit of introductory history is followed by a stop-and-start account that asks readers to flip to different pages based on the choices they make. The fragmented nature of the series can be confusing, and despite the creative take on the topic, some of the writing is on the dry side. Readers who persevere will be presented with a grim, realistic view of the human cost of these large-scale projects (many of the options end with the death or dismissal of the worker) and some interesting sketches of history. Two "Further Paths to Explore" suggest exercises in reading and writing to aid students with key ideas

and details. More ambitious than appealing, these will best serve as supplemental material for classroom units dealing with famous structures.Â Â (c) Copyright 2014. Allison Lassieur has written more than 100 books on many topics, including history, biography, science, and current events. She has also written fiction novels and short stories, puzzles, and activities. When she isn't busy writing, Allison enjoys knitting, spinning, and reading good novels. Allison lives in Trenton, Tennessee with her husband, daughter, and a houseful of pets.

This is a choose your own path and adventure book, while learning some history too. You follow the directions of what you would choose to do...do you stay and help build the wall? Do you carry earth? Or work in a quarry?This can be read to smaller children or those 8 to 12 would be able to read it themselves. Either way, facts are learned in an interesting way and of course the book can be reread again and again choosing different paths. There are illustrations and pictures starting with the emperor in 219 BC and the clay warriors. A timeline is included as well as a glossary and additional information sites and an index. This is a good way to learn history and also discover the perils and wonders in decision making.
