VOODOO: The Secrets Of Voodoo From Beginner To Expert ~ Everything You Need To Know About Voodoo Religion, Rituals, And Casting Spells

Synopsis

If you're ready to learn the ways of Voodoo and finally take control of your own destiny, then this book is for you! Second Edition Newly Released September 14th, 2016 Read on your PC, Mac, smart phone, tablet, or Kindle device. Most people have heard of Voodoo before, but if you think it only has to do with sticking pins into cursed dolls for the purpose of inflicting pain onto your enemies, you couldn't be further from the truth. Voodoo, or 'Vodou' as it is traditionally referred to, is a modern-day take on an ancient Haitian religion developed by African-Caribbean slave workers on island plantations during the period of French Slavery. Apart from simply being just a religion, Voodoo is actually an entire way of life which is centered around an immense respect for one's elders. This respect is further expanded towards life philosophies and spirituality, and even extends into the realm of a great respect for nature. This book is designed to introduce you to the very essence of Voodoo, and then after you have prepared yourself both mentally and physically to perform Voodoo spells and rituals, you will learn how to put into practice a very basic Voodoo spell and protection charm. While you're going through this book, it's important to keep in mind that, within the practice of Voodoo, everyone is part of the same order, so with a little bit of hard work and dedication, you too can master the art of voodoo and reap the countless benefits that come with it. Customer Reviews

I have great interest in mystical religions and Voodoo is one of those. In fictional movies, it usually goes with dark magic; yet the opposite fact can be found in this book. I actually did not read it out of ambitions to practice Voodoo, I just wanted to know and understand more about this religion. All my expectations are met. This book contains the history of Voodoo, a long one that we cannot accurately trace back. It also presents the Voodoo's nature, where we come to know the term 'Loa'. For those who are interested, this book gives instructions on how to do the spells, healing charm, protection charm and so on of the kind. It is not to harm people like some may prejudicate, it is meant to protect. Interesting read, indeed!

This is an easy to read primer on voodoo that not only educates but clears up common misperceptions. Recommended read

good information but not a lot of it , basic a lot of karma will get you and get a teacher . I think most of us would get a teacher if there was one about .I like being a solitary in the craft but I still would like to learn from a person aka teacher but there are none in my driving area that's why I buy books to learn

Give it to my daughter I felt it was perfect as an introductory and I'm sure will spark her interest. Thank you to all who have compiled on this beautiful knowledge and one place

Smaller Than What I Thought It Would Be, But Has Some Helpful Info.

This is a very good book for a person who is beginning their studies on the Voodoo. Although Voodoo is a complex subject, the author does an excellent job of writing a book that is very easy to read. I highly recommend this book for anyone who would like a basic understanding of this ancient religion and practice.

Not most info in this book.

An accessible and informative guide. Illustrations on anointing candles would have been helpful and it could use more spell coverage. Otherwise, an easy and engaging introductory read.
