Catalina By Air (Images Of Aviation: California)

Synopsis

For years, reaching the paradise destination of Santa Catalina Island, located miles out in the Pacific Ocean, was possible primarily by steamship. But as early as 1912, the first amphibious airplane landed in Avalon Bay, and the first air-passenger service was introduced in 1919. Seaplane service thrived on Catalina, and aircraft engine roars became a distinctive memory for many residents, along with the thrill of crossing the channel by plane and landing on the water. The "Airport in the Sky" opened in 1946, with United Airlines operating DC-3s, followed by other airlines operating land-based planes. Today helicopters carry passengers across the San Pedro Channel in less than 15 minutes. This unique photographic history covers public air transportation to and from Southern California's iconic island, featuring memories and stories from residents, visitors, and airline employees.

Book Information

Paperback: 128 pages

Publisher: Arcadia Publishing; First. edition (July 28, 2008)

Language: English

ISBN-10: 0738559369

ISBN-13: 978-0738559360

Product Dimensions: 6.5 x 0.3 x 9.2 inches

Shipping Weight: 10.4 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 4 customer reviews

Title: Catalina by Air Publisher: Air & Space/Smithsonian Magazine Author: Jeannine L.

Pedersen Date: Dec 08/Jan 09 Issue This charming collection of black and white photographs

documents airline service to California's Santa Catalina Island during aviation's Golden Age.

Even non-aviation buffs will smile at images of seaplanes "from gawky amphibians to sleek flying boats" making their way in and out of the picturesque harbor at Avalon Bay.

Author Jeannine L. Pedersen, the curator of the Catalina Island Museum, gathered more than 200

vintage photographs from the museum's extensive archives and from community members. The Catalina Island Museum is a nonprofit organization dedicated to the preservation and interpretation of Catalina's unique and fascinating history.

I was aware of some aspects of seaplane/amphibian service to Catalina Island from the 1950's to the 70's. I wasn't familiar with all the various service starting back in the 1920 era...This is a very definitive work on the subject and Jeannine Pederson has done a great job compiling the information and historic pictures...I highly recommend if you have an interest in So. California Airline history.

Well written and good pictures

We've flown into the airport on numerous occasions. It is a challenging airport for pilots. We've watched the seaplanes many times.

as is
