Includes trip logistics, geology and natural history, native and historical information, 21 maps, 45 photos and illustrations.

I've floated the Tat three times, twice without this guide, once with. It is incredibly helpful to find good camps, hikes, troublesome spots, etc. I would love to be able to buy it from .com (which I attempted to do), but as you can see, it says that it is currently unavailable. If you do a search for its publisher, Cloudburst Productions, you can find ordering information. A delighted boater / reader, with no connections to the publisher

Why do you see fit to charge nearly \$100.00 for a used book when I can buy it new for less than \$20.00? I usually always buy books from you, not in this case.
