very good

Shadow puppets are fun to perform for the amusement of children and others. The author demonstrates that they are easy to do, and most don't require additional materials. They, and the simple folded paper projects that he includes in this book, bring back quaint childhood memories.

Easy to follow directions, great gift for any age young and old. I have had hours of laughter and bonding time with my children with this. . I recommend it to anyone that wants bonding time with their children

I was hoping this book could be used by our 5 year old granddaughter who loves making shadow puppets when she goes to bed. Unfortunately, it didn't have directions for many different puppets included.

I am guessing this is a digital republishing from a much older book. But that doesn't matter because this is a fun book to read. It has all kinds of creative ways to do shadow puppets. Worth a read, especially if you have little ones to entertain.

It'S good for a sleep over parties and if you have little brothers and sisters, it helps them learn their animals.

Not as easy as it looks

my mother in law wanted some shadow books for her great grandchildren. she thought it would be nice for them to learn how to amuse themselves. this is what she wanted and i was happy to be able to help her out. the kids are having fun and maybe will remember their dear great grandmother who is 88 :0)
