BEWARE!!! This "premium" third edition is supposed to come with additional online resources as stated on the cover to the book. However, neither the [...]online app nor the mobile app show any content for this book title. When I tried to send a support request to inquire about this, a "fatal time zone" error page popped up.

I have the kindle edition on an iPad mini It lacks page numbers and the ability to find bookmarks or go back and forward to previous places in the book, in particular, the index and answer pages. Since it is used for a class it is not efficient as a paper book

good comprehensive review with thought provoking evcercises

It was even better than I expected.

It's a good book. Very good with grammar actually. The problem is that I find pronunciation and listening just as important a part of learning as writing. These two former parts of speech are only found on the app as questions. This makes it very complex for a beginner to learn with and boring too.

Very comprehensive. lots of grammar and vocabulary exercises

Very good reference book.

Love! Great work book.
