Number In Scripture: Its Supernatural Design And Spiritual Significance

Synopsis

First published many decades ago, E.W. Bullinger's *Number in Scripture* remains a first-rate scholarly study of the importance of numbers in scripture. Bullinger's work edifies Christians and challenges cynics by expertly surveying the intricate design and purpose in God's inspired word. Though the reader will find reading *Number in Scripture* from cover to cover satisfying, it is in many respects a reference book. Both Bible teachers, preachers, layman, and new Christians will benefit by keeping this book nearby while studying the Bible. The book includes original Greek words and their English equivalents. Hebrew words are rendered in their English equivalent. Alacrity Press is proud to make available this classic Christian work for the current generation of believers.

E. W. Bullinger (1837-1913) was a direct descendant of Johann H. Bullinger, the Swiss reformer. Bullinger was a lifelong scholar and writer studying at King's College, London. In 1862 he was ordained in the Church of England. He is also the author of the notes and appendixes of The

Companion Bible and the author of numerous works including Commentary on Revelation, Great Cloud of Witnesses, How to Enjoy the Bible, and Number in Scripture. --This text refers to an alternate Paperback edition.

You wont find this information anywhere else. The numerology is very helpful with dream and symbol interpretations as well. Will be my go to book for anything number related.

Fascinating. Every Christian should read this book.

Good book. Bullinger as always very good.

Very content with this purchase. Amazed and flabbergasted by the sheer volume of detail. This is a great additional and asset to biblical study.I was so impressed that I ordered other books by this author.

Recommended reading for serious Bible students and seekers of Truth.

great information..

This book contains a wealth of information that - if it isn't - should be a textbook for seminary students. It contains facts & figures that prove the Bible (KJV) is indeed the Word of God. Even though actually written and preserved through the centuries by human hands the Bible is obviously inspired by God by means of the Holy Spirit.The consistency of numbers and other words (nouns & adjectives) from Genesis through Revelation is beyond human origin when considering its origin with Moses (or maybe Job) and finalized by John's Revelation - a period of over 1000 years by various authors.The book NUMBER IN SCRIPTURE is for those who know and love the Lord personally - others will only scoff, criticize, and find no interest whatsoever.

For the series student.
