The FastTrack Guitar Method Book 1 (Fast Track Music Instruction) is an excellent beginning guitar method!! use it with my students and have found most Students capable of doing very well by the time we get through Book 1 & 2 as far as determining where they would like to continue their guitar playing careers. Michael Stephen Jackson.

We bought this as adults learning guitar basics and have now worked our way through the book. It is EXTREMELY well done, easy to follow. We had a teacher helping but the book would have been fine without a teacher for the do-it-yourselfer. Great beginner book which covers each of the 6 strings separately before moving on to the next. Each lesson builds on the previous knowledge. At the end of the book tabs are introduced.

The music store recommended the book and I LOVE it. It walks through simply and I love playing along with the music so I can hear it first then play along. It really is awesome and interesting. I am

a 28 year old beginner. LOVE IT. You can really play a tune after a few chapters! I got it on the kindle and I like that too because it is interactive.

My son is loving guitar classes so far. It has only been two weeks but he is catching on. Since this is my second child giving it a shot and the first did not use a book, I can only assume right now that the book is helping. He is liking this book and the class.

I had this book before and loved it. But not much time to start back up. But I have it when the time does arrive. I would highly recommend it for anyone who wants to start to play.

The guide perfectly supports the patient and methodical teaching style of my instructor. It also exudes a sense of humor at difficult points in the lessons.

Amazing just outstanding

This has been a great tool for learning. Thank you so much
