"An easy, well-structured treatment of an eternally hot topic, this is a likely choice for beginning readers."--Kirkus.

Illus. in full color. Difficult dinosaur names are simplified with phonics. --This text refers to an out of print or unavailable edition of this title.

My 5 year son LOVES dinosaurs and this book is great. Can is starting to read, so he can read

some of it by himself, but he also just enjoys looking at all the pictures. I like how they help sounding out the names of the dinos because some can be so tricky and my son doesn't like it when I pronounce them wrong:)

Another great book for a beginning reader. Well written and informative. I like the way the books show pronunciations.

My son enjoyed this book and it was just right for his level. A little difficult, but not too hard that he couldn't get through it, and was able to learn from it. This one got both my boys interested in the topic.

My son loves the illustrations!

Grandkids love it.

This book is amazing, I bought it for my nephew and he absolutely loves it!!!! He literally wants to take it to school everyday, this book it's a perfect balance of fun and knowledge.

excellent book to read

Quality product; easy transaction; prompt delivery; highly recommend!!
