Customer Reviews

The Explorer's Guide: Adirondacks was a disappointment. I had already made a week's reservation at a cottage with a kitchen, so the detailed descriptions of lodging and dining options throughout the Park were not useful to me. To be fair, there are sections in each of the chapters which speak to activities, sites, and events in the various areas of the Park but often this information was not satisfactory, as when the author mentioned driving tours and then listed a website where one could read about these routes online. This is the sort of information I would want to read about right in a guidebook's pages. This book felt more like a product of the Chamber of Commerce, suggesting places where I could spend my money. I think that there is great potential here for someone with knowledge of the Adirondacks to write a tight, well-organized guidebook similar to those produced by Moon or Lonely Planet to do justice to this beautiful Park.

This is a very good guide to the Adirondacks. I have no trouble reading it at all. It looks like any other book to me. (? - complaints about the typeface in another review-did they just get a bad copy?) But it contains a lot of useful information. For example, we were driving back from a trip to Sagamore recently and decided it would be a good time to get a bite to eat. I looked in this book, found a tavern listed under Inlet, and we went there and had a nice meal. The food and the place were as described in the guide. From my experience, lodging, restaurants, shops and museums listed are accurately described, which I really appreciate!The Adirondacks is big, and we like to explore different areas when we go there. I would highly recommend this guide for anyone who wants to find out where to stay, where to eat, good hikes, etc. I'll definitely be using the book many more times.

Very disappointed! It is basically a collection of suggestions for hotels and restaurants with very little and superficial info on actual attractions and no info at all on trails. It is also poorly organized visually with loads of irrelevant info

googling info proved to be more useful than this specialty book. Too much fluff, not enough substance.

If you are planning a trip to this region, this book would be very helpful. It has lots of listings of places to stay and things to do in the region.

This was a good choice to preview our summer 2013 trip to the Adirondack Mountains. Lots of valuable information, attractively presented.

helpful book

THIS BOOK WAS VERY HELPFULL AND INFORMATIVE DURING OUR TRIP TO THE ADIRONDACKS, ESPECIALLY THE INFO ABOUT SARATOGA THANKS THANKS
