What Was The Age Of The Dinosaurs? (What Was?)

Synopsis

Travel back to the time when the mighty dinosaurs ruled the earth. The Age of Dinosaurs began about 250 million years ago. In the beginning they were quite small but over time they evolved into the varied and fascinating creatures that captivate our imaginations today. What we know about dinosaurs is evolving, too! We've learned that some dinosaurs were good parents, that dinosaurs could grow new teeth when old ones fell out, and that most dinosaurs walked on two legs. We've even discovered that birds are modern relatives of dinosaurs! From the Trade Paperback edition.

Customer Reviews

this was given as an easter present the child loved it what more can be said about the product d

Great book for kids. Purchased for my grandson due to his interest in dinosaurs.

Jurassic World here we come. My grandsons, 8, are my movie dates. See the movie, read the book

The book the age of the dinosaurs will take you back more than 250 million years ago and teach

you about dinosaurs. It will also teach you about fossils, people who found them ,and some palientologists. This book will also teach you ? about dinosaur speicias and and about these dinosaurs.

great book my boy love it

Love these books!

Love itGreat deal!

My kids live this series of books. They list a suggested age range but my older child lives these as well. I bought multiple books from this series and my children were delighted!
