They mapped out every 20 miles of highway, indicating places you & your family might want to stop. Highway maps are easy to read, beautifully organized & quite complete and each attraction is highlighted in great detail on the pages that follow so you can decide if it is the right

place for your family to stop or not. -Moms Travel Tales

I used this book on our way to Florida from New York. Certainly allowed me time to plan on our rest stops. It was great read for me as well.

This book is ideal for children who travel on I-95 frequently. It has all of the points of interest that may appeal to them.

I was really excited to get this book to help us know where we could stop and let our toddler run around while we drove from CT to SC. The stretch between Fredericksburg, Va, and SC has virtually no safe, weather-protected options, particularly if you're driving on a Sunday and Chik-Fil-A with the playlands are closed. We thought this book would help, but the one exit we stopped where a Chuck E. Cheese was listed had nothing of the sort. We were very disappointed. It just did not seem to be up-to-date enough. What they really need is a website that can constantly be updated.

When we decided to drive to Disney someone suggested we try this book. Glad I bought it. We made a few stops over two days and were able to find children friendly hotels and activities.

This book was incredibly helpful for our drive from NJ to FL!! We tried new stops and it turned our drive into an adventure!
