Dark Stranger The Dream: New & Lengthened 2017 Edition (The Children Of The Gods Paranormal Romance Series)

Synopsis

Hands down the best book series I have ever read. I Devour the books and coming from somebody who reads all the time this is an extreme compliment. I can't wait to read more please please keep writing! your writing style and everything is perfect I have never read such a well-written book where the story line develops with so many characters I love knowing what's going on with everybody I love that you switch characters back and forth it is so awesome. Also the steamy love scenes are to die for!"Love Love Love this book! This book had me hooked right from the beginning! I had to read every book in the series one right after the other and I can't wait for the next! This is probably the best series I've read and that's saying a lot since some of my favorite Authors are JR Ward, Christine Feehan and Sherrilyn Kenyon!"Best in the genre I. T. Lucas pens an exceptionally well developed story. Many writers in this genre are predictable and formulaic. The Children of the Gods series is never predictable. This series stands with the best of fantasy writers - the fact that it is romance fantasy is almost beside the point. That said, even the sex scenes are well done and NOT predictable! A must read.I love this series. I am a huge BDB fan..never miss a book EVER.Now I have added this series to that list. So well written and never drags onÃ¢â always a page turner. And it is not typical stuff, it is very unique! An absolute must read!""I literally read this entire series in 3 days and now I'm going through character withdrawal waiting for the next. I.T. Lucas is an amazing writer with a brilliant mind and has quickly been added to my favorite author list."Syssi's paranormal foresight lands her a job at Dr. Amanda Dokani's neuroscience lab, but it fails to predict the thrilling yet terrifying turn her life will take. Syssi has no clue that her boss is an immortal who'll drag her into a secret, millennia-old battle over humanity's future. Nor does she realize that the professor's imposing brother is the mysterious stranger who's been starring in her dreams.Since the dawn of human civilization, two warring factions of near-immortals - the descendants of the gods of old - have been secretly shaping its destiny. Leading the clandestine battle from his luxurious L.A. high-rise, Kian is surrounded by his clan, yet alone. Descending from a single goddess, clan members are forbidden to each other. And as the only other immortals are their hated enemies, Kian and his kin have been long resigned to a lonely existence of fleeting trysts with human partners. That is, until his sister makes a game-changing discovery - a mortal seeress who she believes is a dormant carrier of their genes. Ever the realist, Kian is skeptical and refuses Amanda's plea to attempt Syssi's activation. But when his enemies learn of the Dormant's existence, he's forced to rush her to the safety of his keep. Inexorably drawn to Syssi, Kian wrestles with his conscience as he is tempted to explore her budding interest in the darker shades of sensuality.KIAN & SYSSI'S STORY IN A 3 BOOK SERIES. Customer Reviews

A branch of a Scottish clan of near immortal makes Los Angeles its home, where its exceptionally good looking members can blend among the many wannabe actors and musicians who flock to the city of lights. Kian, their leader, believes that by hiding in plain sight among the large city's mortal population his people are safe from their enemies the Doomers. Both groups originate from the

mythological gods and had been at war since antiquity, when the God Mordth, the God the Doomers worship, had been spurned by the goddess Annani, the matriarch of Kian's clan. He had sworn himself as well as his descendants to wipe out Annani together with her descendants, and to obliterate the gods' matriarchal tradition of a woman's right to choose her mate. The Doomers adhere to his hateful patriarchal legacy, and to keep human society at large from achieving democracy and enlightenment they manipulate global affairs and instigate wars. But the Doomers are not the only problem Kian's clan faces. Annani's descendants can't find immortals who descend from other goddesses to enrich their limited genetic (godly) pool. While Kian is leading the war, his sister Amanda who is a professor of neuroscience is leading a search for Dormants by testing mortals for paranormal abilities. Dormants are carriers of the godly unrealized genes who can be turned into immortals. Her research assistant Syssi's precognition ability is the strongest yet, but to activate Syssi Amanda needs Kian's help. When the Doomers get their hands on Amanda's research material and find about Syssi the story takes off on a page turning thrill ride. Each character has a unique voice and a fully developed personality, and the world building is incredible, with a complete culture and mythology going back to the time of the gods. I loved the deep friendship that develops between Sissy and Amanda despite how different from each other they are in almost every possible way, and how much both Amanda and Kian care about Syssi. The heart-pounding action and Sissy and Kian's titillating romance kept me reading into the night, while the funny scenes woven in between made me laugh out loud. By the time I finished book one I was completely immersed in the story, and by book four I was dreaming about it. The children of the gods is my new favorite urban fantasy series.

Dark Stranger: The Dream-Revealed-Immortal Books 1-3 in The Children of the Gods Series I.T. Lucas Books 1 through 3 of Lucas's Children of the Gods series Lucas's Children of the Gods series is unique, eye opening and addicting. Her premise of descendants of Gods battling it out through the centuries and almost wiping out each other and the human race is excitingly fresh in a genre gone stale. The race may be ancient but they surround themselves with all the current luxuries and technologies. With a plucky dialogue, action packed scenes and unforgettable characters they're hard to put down and almost impossible to stop at just one. Books one through three is Kian and Syssi's story and must be read in order. In these first books of the series you will meet most of the characters, learn their history and will become intimate with a few key players. Lovers of all things urban fantasy, myth lovers and fans of kick-butt hero and heroines this is for you. AUDIBLE: The

audible edition narrated by Charles Lawrence gives the listener a deeper perspective of the story by magnifying all the emotions and actions of the characters. His seductive baritone does a great job with all the voices and the intonations of the very different characters, females and males, human and immortals.

SUMMARY: From the beginning of time there have been near immortal beings who have molded humanity, been the object of worship but who as a race almost destroyed each other and human civilization. Now only two Gods are left both sworn enemies: The followers of Morta, the Doomers and the descendants of the Goddess Annani. Kian, the son of Annani is the leader of his clan all descendant of the Goddess they live a lonely existence denied true love because the only other of their kind are their greatest enemy. When Kian's sister, Amanda discovers that humans who have certain psychic traits could be in fact dormants of their kind he's skeptical until he meets her assistant and most likely candidate, Syssi and falls head over heels in lust with her. Syssi knows she landed the perfect job as Dr. Amanda Dokani's lab assistant that is until there is a break in at the lab and Amanda insists she stays with her until the danger passes. When Syssi meets Amanda's gorgeous, unsettling brother, her whole world turns upside down and she has no idea what's in store for her.

I approached this book being weary of a few bad series choices, but was not only pleasantly surprised, but eager to read all the books available in the series. This series follows the lives of the Goddess Annani and her children who have stayed hidden for thousands of years. Their purpose is to add to mankind's future evolution by helping them with science, education, better treatment for humanity and to protect the world from destruction. Unfortunately, there is another faction of immortals that believe that humanity should be returned to the dark ages and controlled by the dark immortal Navuh. This story sets the foundation for the future installments. (These are not stand alone books. They must be read in succession.) This book starts the storyline of Kian and Amanda, Annani's son and daughter who control the Los Angeles base of immortals. Amanda is a doctor that believes that there are dormant immortals in the world, the product of human/immortal matings. Amanda is positive one of her students, Syssi is one of the dormants because she has visions of the future. Kian is skeptical, but realizes that Amanda may be on the path to increasing their dwindling numbers. The romance that blooms between Kian and Syssi is the final outcome for this book. I know you're thinking that this series is again the formula most PR writers follow, but I.T. writes great characters with a wonderful assortment of personalities. I love a writer that makes me laugh as well as fulfills my need for a good story line and romance. I read through all 9 books in 4

days and am ready to read the novella of Michael and Kri. After that, I will wait impatiently for the next book in this series. I currently have 7 writers I follow religiously and I.T. Lucas just became number 8.
