Customer Reviews

This one needs to be for sale in Bridal Shops everywhere. I have read so many bridal books lately for every aspect of a wedding but never really thought how intricate the art of writing a thank you note could be. This wonderful book is laid out perfectly for any situation you may have when writing your note ie: Thank you note for the Wedding Party, or for the Mother of the Bride or even Thank you notes for certain gifts that you receive. Its amazingly easy to follow and will be so handy to just flip to the section you need when you need it and write a beautiful hand crafted note for someone who cared enough to share your special day with you.

Where has Ms. Daniels been all my life? I bought this book because I am helping a friend of mine with her wedding and since it is my job to send out all of the correspondence (including "thank you" notes), I needed some serious help for her wedding party that has swelled to nearly 300. When I say that Daniels has included every kind of "thank you" note for every aspect of the wedding, I am not kidding. From "thank you" notes for the wedding festivities to "thank you" notes for specific family members and China...she simply has all of the bases covered. This comprehensive, easy-to-read ebook is the perfect guide for a clueless helper (like myself). It is great for both novice and professionals. She practically saved the last swatch of hair had left after pulling the rest out from frustration! Definitely a literary Godsend!
