Customer Reviews

Gregg's advice is spot on. His books are the best value out there - I've tried Christian Carter, Rori Raye and Matthew Hussey and spent way too much money. While they offer some advice, you spend an inordinate amount of time filtering out the fluff. They don't begin to compare to offering straightforward and insightful relationship advice IN A NUTSHELL at a great price. Don't waste your time or money elsewhere. Oh - and be prepared to not only get over your ex but be happy to move on to bigger and better! A huge added benefit is that you can email him on your specific situation.

THANK YOU Gregg!

Gregg provides great advice, much of which you probably already know, but sometimes need to hear from someone else. Plus suggestions and steps that make it easier, especially for those of us who work better having a plan. I can't speak for whether his plan will work, to early in the process, but it is already making me feel better, whether I get him back or not. I'll add reviews as things progress. A fast, easy and entertaining read; practical. Gregg provides his email for contacting him. I thought "right, there is no way I will hear back from him." But, I had some unusual circumstances and decided I had nothing to lose. I heard back from him in less than 24 hours! A pleasant surprise and his response was helpful and insightful. I have ordered several of his other books and am looking forward to getting further advice and ideas.

Other reviews state something like "Lots of good information" or something like that. Well I'm going to tell you how the information in this book worked: I used the techniques on two men: an ex husband (who had a girlfriend and some legal issues I didn't know about at the time) and a guy who I knew was not right for me (he was much too young for me and had a gf!). Well, the ex husband is trying to get back with me (after 3 years!) and this hot young thing is doing his best (after one year!)... so I'm still employing the techniques and will have some fun with both of them. I'm also in a current situation, where the guy I really like is still not committed and leaving his options open--this is hurting me but he will NEVER know that. I'm about to employ Gregg's techniques on him! Btw, when I first read this series, I emailed Gregg and he emailed me some terrific, free advice. It is clear that he knows his stuff AND really enjoys helping people.

In less than a week this book has changed my life. It's a short read and straight to the point. Ladies if you are trying to get back with your ex this book is the book to read. What's also so great about the book is that it is from the male point of view. I don't care how many other books you have read but until you read a book from the male view you/we will not get it. I have followed two of the steps in the book and can I tell you they work. There is still more work/game to go but things are looking promising. And I'm willing and ready. I can't tell you what the steps are so get the book, But I will tell you this. Mr Michalsen states in his book to email him and can I tell you I emailed him and 24 hours later he emailed me back. And it wasn't a generic email he spoke about what I emailed him about. You can't get any better than that!!!! Ladies get the book.

I enjoyed the author's down-to-earth writing style and humor. It was great to get the male perspective on how men deal with break ups. The author gives methods on how to get your ex back WITHOUT losing your dignity and self-respect. I've noticed how some books on the subject recommend accidentally showing up where your guy works, lives or hangs out etc. so that he can see how great you look. I never liked that advice because doing that seemed so transparent. I think the authors methods are very good and it was funny to read how the men really feel while you're following the steps. I believe this method can be very effective for resolving many standard break ups. I hope the author will write a part 2 to this book that might include information on how to handle other situations (such as if you live together or it's a long distance relationship). Those specifics would be wonderful.

Gregg gives you something that other dating books do not...he will personally answer your email and discuss your situation with you. You first get to read a book that cuts to the chase and gives you easy to follow advice, and then if you need further guidance you can email him. I did and he helped me tweak his plan to suit my personal situation. Don't waste another day not having this book to get you through this difficult time...being proactive is better than being reactive!

While I wish I could report that I have successfully gotten "him" back, I am still at the beginning stages of this process and am busy finding my own life as Gregg suggests, at the moment. I do, however, recommend the book. We do not think like men and the sooner we realize that the better off we will be. Gregg offers insight into the male species that will benefit you even if you don't end up getting your ex to return. This book has offered me hope where I initially did not see any and for that I am grateful. Some may see it as false hope, but when someone has lost the person they love most in the world (and he's actually not a total jerk), any hope helps get you through the hardest days. After reading the book - I can see how it can work, but requires you make real and lasting changes to how you approach your own life and in turn how you approach relationships. BTW, he actually does respond to at least some emails (provides his email at the end of the book) - I can personally attest to getting a response from him even though I didn't think in a million years I would. Also recommend his Power Texting Men book.

So many things to realize....did you forget the number one person in your life....you? Was what you had really what you wanted in your life? Did you forget what "you" were all about? We were never taught relationship issues and self confidence issues and isn't that what this is really all about?

Gregg has a good viewpoint to study and put to the test on what and whom you want in your life.

This is a guide on getting You back, or finding her, and then working on him. Good guidance!
