The Lost Children: A Heroin Abuse Tale (The Uncensored Collection Of Addictarium Parts Book 1)

Synopsis

What happens when an entire generation comes undone? Danielle Martino hitches a greyhound bus to New York City to save her one good eye, after shooting bad heroin, only to find herself facing even more adversity from day one. As she is admitted into Bellevue for several weeks of eye surgeries, upon her discharge she enters Safe Haven Village; New York City's NOTORIOUS intensive rehabilitation center, most known for housing felons, homeless patrons, and the mentally ill. The Lost Children, taken from (Generation of) The Lost Children--part I of Addictarium's original novel, is now available as a series! The uncensored books are separated into four parts, and in book 1 we witness Danielle's struggle to stay sober, as she pushes needle and heroin use to the side, but cannot shake her other addictions; self mutilation, pain, love, attention, and dabbling in "recreational" drug use. From jamming seven hits of acid down her throat, to being part of a dysfunctional triangle between a best friend and her first lover since her split from her fiance of six years, Danielle must choose where to run and hide when all hell begins to break loose. Her closest confidante is pimped out and relapses, in addition to her own struggles, and even she begins to question: what is the cost of sobriety from drugs? Do we not just replace the primary addiction with the next best thing? The Lost Children prepares us for a peek into the life of a recovering addict whom hasn't yet "recovered." It sets us up for installment II, which begins to highlight an obsessive relationship she forms with a much older, male counter-part, at the center, and leaves us begging for more...
