With more than 63 million cookbooks sold since 1950, Betty Crocker is the name readers trust for reliable recipes and great ideas. For over 75 years, Betty Crocker has provided advice to millions of Americans through cookbooks, magazines and television.

I've owned the BETTY CROCKER COOKBOOK for decades when I was raising my family. It had all the 'basic' recipes for individuals such as myself who were clueless about cooking and meal preparation. I used it almost everyday. Best of all, the BETTY CROCKER COOKBOOK had many 'specialty recipes' which were easy to prepare. Over the years there have been new editions, however this wonderful cookbook was always well-organized and offered many tips and tools for cooking meals, and suggestions for specific dishes. My children are all grown, and I no longer cook as I used to. However, I still used the BETTY CROCKER COOKBOOK on occasion. Yet, somehow my cookbook was lost when I moved. I considered purchasing another cookbook. And in fact, I've tried several others. However, none compare to the BETTY CROCKER COOKBOOK, which I came to count on for the many great recipes and easy step-by-step instructions which are easy to follow. Best of all, I've always enjoyed the beautifully illustrated dishes found in this great cookbook. The Tenth Edition of the BETTY CROCKER COOKBOOK is well organized, and has many new features for the novice cook to the professional. There is a wealth of information in the indexes offering well-researched references about all you need to know about each food group, what to look for, how to measure, which utensils you'll need, etc.; and all the various ways you might want to prepare your particular dish - this ... AND A LOT MORE! I was thrilled when I received my new BETTY CROCKER COOKBOOK Tenth Edition cookbook in the mail. It is a 'must have' for every home. Maizie Lucille
James July 14, 2012

We have been using this book for a couple years now and we love it. The recipes are well written and easy to follow, and the pictures are nice. We like that the book has a nice mix of basic recipes as well as some more interesting and unusual ones. This would be a great book for someone who is somewhat new to cooking or is setting up house and needs a good cook book to start their collection, though it would also be useful to more experienced cooks as well. Some of our favorites from this book: Chicken Pot Pie, Cinnamon Rolls, and Kung Pao Pork. I do wish I had spent the

extra money to get a hard cover version. With several years of heavy use the spine on the book has cracked and the pages are starting to fall out.

Love this cookbook, it offers something for everyone. Also offers some helpful tips and tricks.

My very first cookbook 50 years ago, and the only one I would buy again. I still have the original, complete with broken binder, loose pages, and chocolate splattered on some of the pages. I have written notes on the recipes I've tried, most of them say "great" I was happy to find most on my favorites still in the the new book. I have added many other cookbooks, but one glance at my bookshelves will tell you which one I used the most..

I bought 3 for Christmas presents a year ago. I feel everyone needs to start their cooking life with an excellent cookbook that they can also use as reference for cooking temps etc for things like turkeys, standing rib roasts etc. I have an older version that I set up housekeeping with many years ago. Sure, I sometimes look at recipes online. But, you have to boot the computer up and spend time reseaching reviews. Betty Crocker is reliable and it is so easy to just get it off the shelf. Easy to find the items you are looking for with a great index and the different sections. You know the recipe is going to be tasty. And with some recipe sources this is not always true. I also love anything Southern Living.

This book is for anyone looking to learn how to cook, I got one for my wedding, from my sister at the age of 18 (just a couple years ago..lol) I can not tell you how many times this book got used through the years. This past Christmas I decided my sons girlfriend needed one, she wants to learn so badly, and guess what, not only does SHE love it, but so does my son, they call it their kitchen bible! Easy to understand, colorful, recipes are with ingredients you usually have on hand. I would recommend this to anyone!

I retired from the Canadian Civil Service about three years ago now and, some time later, decided maybe I should figure out how to cook good food for myself. I knew from my mother (now deceased) that Betty Crocker and Better Homes and Gardens were the corner stones of cook books in Canada! So I bought them. I haven't used many of the recipes yet (redecorating my apartment and, sadly, several deaths in the family among my mother's generation, have kept me focused on other responsibilities in life). What I do know is that both of these foundation cookbooks have very valuable

information on cooking tools and cooking skills; and the glossaries are indispensable! Hopefully, the future is yet ahead of me!! Hope you enjoy your cooking and cookbooks as much as I intend to (yah, I am still kitchen challenged!)

Betty Crocker Cookbook: Everything You Need to Know to Cook Today, 10th Edition Yes, Received this Betty Crocker Cookbook and are thrilled with it. It has a Chapter for everything you should ever need to cook about anything, beautifully written and illustrated and has over 1,000 easy to follow recipes. and a lot o them (130) ready in 20 minutes or less.
