Synopsis

Bigfoot Saving Humans*Read For FREE with Kindle Unlimited*and BIGFOOT FREE BONUS OFFER Following the Conclusion!Enjoy 11 Amazing Accounts of Friendly SasquatchesIt is my belief that Bigfoot is much more human than not. I believe this is apparent from the thousands of amazing accounts that paint a broad picture of the shy and reclusive creature's character. The accounts vary from brush-ins to terrifying and violent to amazing and peaceful. After writing several books detailing the violent side of Bigfoot, it is long overdue that I acknowledge this amazing creature's more gentle side. Within this book you will discover 11 different peaceful Bigfoot accounts. Some of these accounts span years while others detail amazing rescues where Bigfoot saves a human being from certain danger or death. Come with me as we turn the page and discover the beautifully peaceful and empathetic side of Bigfoot.I hope you enjoy this book in the series, True Bigfoot Encounters by Jeremy Kelly: Sasquatch Saving HumansScroll up and Use the "Buy now with 1 Click" to Purchase Easily and Effortlessly-----Ten years ago I went on a hunting trip in northern Washington State with my cousin Jason. I am far from an outdoors-man but I still jumped on the opportunity for a long weekend getaway with my crazy cousin. Had I known what I know today I am not sure if I would have gone, but what is certain is that my life forever changed that weekend. After getting separated from my cousin the first evening I found myself lost in the vast wilderness, scared, and alone Ã¢â€œ at least I thought I was alone. Unbeknownst to me I was being hunted in the woods by a Bigfoot. I am not sure how long he was stalking me but I know I was lucky to get away with my life. For years after that weekend I was a different man. I was constantly in fear and scared to go anywhere outside of my home city in Austin, Texas. To help cope with the psychological trauma I found myself immersed in research studying Bigfoot, the Yeti, Sasquatch, and all other variations of the creature commonly referred to as Bigfoot. My research became an obsession as I tried to come to terms with what had really happened to me. I found myself fascinated with cryptozoology. Of all the true Bigfoot encounters I came across I related most to the more terrifying Bigfoot stories. This book is a collection of those Bigfoot stories. It is the first book in a series: Bigfoot, Sasquatch, Paranormal. I am writing this series for those who are dealing with the aftermath of a Bigfoot encounter and need validation that they are not crazy, or perhaps they simply want someone to relate to. I am also writing this book as a therapeutic outlet as well as a way to reach people regarding the realities of Bigfoot. Bigfoot is real, I know that beyond a shadow of a doubt, and I am far from crazy! I hope you enjoy this collection of true Bigfoot encounters.

Customer Reviews

I was hoping for something better. The stories seemed shallow and not compelling. Would not recommend.

As an observation, the writing was distracting. After reading 15-20 pages or so, the word "massive" was used 4 times and the stories seemed over-dramatized, in my opinion. Perhaps I'll try another read and see how it goes.

My Husband loves to read anything about BIGFOOT, and UFO. He loves anything really true stories about people or history.

A very interesting and eye opener book. A must read, these creature's do seem to have a lot of human trait's

Wish books were longer more stories read in a single night and just wanted more.

FINALLY SOME GREAT STORIES ABOUT THE FRIENDLY SASQUATCH'S

Author should bill this as a novel. Too much here doesn't ring true and comes off much exaggerated.

I've heard other stories of this kind of thing happening to other people also. The one thing that really irks me is the mom that leaves the chicken out while in bear country!
