Awesome! I found this book to be very well written and informative. It's easy to read without weighing you down with a bunch of unnecessary scientific explanations. (Yes of course there's some things that need to be explained) I learned new approaches to handling keto flu. I like the concise 'this is what you need to know' manner of writing. Very good! I was extremely surprised to find out how young the author is in comparison to his knowledge! Worth recommending!
