# Cards Of Destiny: A Birthday Book And Daily Divination Guide

## **Synopsis**

Once a powerful tool for time keeping and divination, an ordinary deck of playing cards hides the keys to humankind's destiny within its sacred numbers and symbols. In CARDS OF DESTINY, the mystical science of the playing cards is combined with the ancient power of the calendar to reveal the universal influences ruling each day of the year. Use the birthday chart to locate the playing card associated with a particular birth date, then read the detailed description of that card's characteristics to gain insight into one's own true nature as well as the personalities of friends and lovers. Featuring full-color reproductions of playing cards dating back to the nineteenth century, a place to record the birthdays of friends and family, and a perpetual calendar summarizing the energetic influences of the cards on a day-to-day basis, CARDS OF DESTINY is a powerful tool for self-discovery, fulfillment, and success.

## **Book Information**

## **Customer Reviews**

\* A two-part gift book combining the mystical science of playing cards with the ancient power of the calendar to reveal the universal influences ruling each day of the year. \* The birthday book features detailed descriptions of each card's characteristics, a birthday chart to locate one's associated card, and a place to record the birthdays of friends and family. \* The daily divination guide features a perpetual calendar summarizing the energetic influences of the cards on a day-to-day basis. \* Includes 52 full-color reproductions of playing cards dating back to the 15th century. \* Includes a Sun Card (describing how others see us) and a Spirit Card (describing our

inner selves).

A student of astrology and numerology for more than three decades, Sharon Jeffers has been reading playing cards for fifteen years. She works as a self-development and performance-enhancement counselor, consultant, and trainer worldwide and gives spiritual readings in Kauai, Hawaii, and Los Angeles, California.

Each person I show this book to, is just as amazed as I was, to investigate their personal card. And those of their friends and family. They say things like "This is just amazing!" ~ "It is so right on the money on all points of my personality!" I highly recommend this book to gift to a friend ....mainly to point out that just because someone may be born under the same sign, doesn't necessarily make us all clones of each other. It is quite refreshing to know what our strong points are and what things we will probably need to work on as we travel on our own individual paths in life. Sharon is 3rd generation in psychic awareness of her fellow man. She also comes from a place of caring love. This book would definitely be fun to have at a party for a bit of warmth and fun. Plus, could serve also as an ice breaker with families that are having difficulty understanding each other. Or....simply appreciating our own uniqueness and expressing our strengths while at the same time, overcoming our weaknesses.

I enjoy this book by Sharon Jeffers very much. It is a little bit simpler than her other one "Love and Destiny". It's kind of like a birthday book where you can read about yourself and others. This book is a great introduction to the Magi work. It teaches how to start understanding the cards and numbers. That can be a lifelong practice in itself. If you are looking for a more involved book just get her "Love and Destiny" book, but this is a great one to have in your collection.

Periodically I order 10 or more copies of Sharon Jeffers' book from to give to friends. I have been a fan of this book since it was published. Ms. Jeffers provides excellent portraits of every card in the deck. She certainly got mine to perfection. And everyone else I know who has read their own card depiction has agreed. A great gift book, and one to have for your own use to look up all the folks in your life, to see what makes them the way they are....both good and bad. It's a winner.

This book is a perfect companion for "Love and Destiny" by the same author. I use this as a reference guide for all my friends and my healing work, It offers confirmation for the wild ride of life

on planet Earth.

Her book on relationships is very good which led me to purchase this. Would have to say that Camp's Love Cards goes into more detail.

every happy whit this purchase, soon will be making another

This is not what I expected this book to be. If you want to give yourself daily card readings or check individual card meanings this really isn't the book to do that.

Cards of Destiny is a new idea but extremely accurate. I gave everyone their card for xmas one year and all the comments were how accurate it was.
