Interesting book and covers the subject well.

I purchased this text for a course, and I actually enjoyed it. It is very easy to follow and not weirdly verbose. I don't keep all of my textbooks, but I will be keeping this one.

Completely in line with my expectations. Thank you again for this book.

It's a book about international business law. Don't expect it to read like a novel and you won't be disappointed.

Very good condition, I was well pleased

Despite that the book is very expensive and a required text book for college, I think it is an excellent book. It is informative and easy to read. The author made the information interesting and kept me engaged. If I didn't need the money (from reselling it), I would keep it as a reference guide.

Satisfied.

took pretty long to ship the order but overall pretty good deal, used book in decent condition, shipping was pretty fast, would recommend
