Buy this book today to get the free bonus book in addition to learning how to maximize your testosterone! Check Out What Others Are Saying... "I've been trying to lose weight and kick some bad habits off and on over the past few years. This is the first book that really motivated me to change. It isn't just bland advice, it really motivated me to want to be a masculine man! I'm finally losing weight!" Tyler Lexington "I didn't realize how much what I eat and do makes me the man I am. Every action causes hormonal changes that make me more or less of a man. This book scared the shit out of me. It made me realize I have to stop being a lazy ass zombie and I made me commit to fighting like a warrior to be as much of a man as I can be." Mark Pilsner "I've always had body image issues. I think it was my negative mindset that forced me to keep eating crap. It fueled my negative personality. I tricked myself into thinking I was unlovable. It was pathetic. After reading this book I realized my masculinity is my responsibility. I took the advice and noticed I was starting to look and feel better. I've even started dating a very cute girl. It's nice to finally feel a little happier." Matt Svenungson. "I am really overweight and was worried going to the gym would be embarrassing. I read a few books on testosterone as I desperately want to get rid of my man boobs. This is probably the best book as its info is all backed

up by scientific studies but also is full of great motivational reminders that convince me to do the right thing. Whenever I consider bitching out of a workout session or eating junk food a few of the quotable lines of this book flash in my head and I am more willing to make the correct choice. “Don’t give up on being a man. Every guy should read this book and feel motivated to change their life for the better.”

Customer Reviews

Adam Rockman truly delivers a great guide for men to increase testosterone naturally. I love that after explaining why men need good levels of testosterone and what it’s good for he then really focuses on natural ways to increasing testosterone. Very helpful tip on food and exercise that I have forwarded to my husband to boost his testosterone levels. Very informative, well written and easy to understand.
