Customer Reviews

I was hoping that this book would have "from scratch" recipes. Instead, it uses so many canned and packaged mixes that the food becomes more of a chemical cocktail than a meal.

If you like "Cajun Cooking", you will like the recipes in this cookbook ... please note the recipes are developed using the "old style" rice cooker ... the ones I have tried in the "new style" (Sanyo) rice cooker did not turn out well ... less water is required when using the "new style" rice cooker ... I'm still working on a conversion ... the recipes I have tried using the "old style" rice cooker turned out great and were very good ... but the recipes are great even if you decide to cook them in a standard pot using the stove top ... If you like Cajun food this is the book for you! The sauce piquant recipes and crawfish and shrimp recipes are amazing!! Cabbage rolls used to take all day to make and now I use the cabbage

casserole recipe to make it easier. This is the only recipe book where I have actually made and loved 75% of the recipes. And they all use simple ingredients that I keep in stock already. Nothing fancy I have to buy!! I know it sounds weird to use a rice cooker for meals but this is like a crockpot that cooks in 45min or less. If you have a fancy rice cooker you need to use the rice setting, not slow cook. And if it says to cook for a certain time then I set my timer and stop the rice cooker after that so the shrimp are not overdone. My family likes meals with substance and not just rice. This book also has a lot of recipes with potatoes instead of rice. The fajita chicken stuffed baked potato recipe is great! And it just uses frozen French fries for the potato part. It doesn't get much easier than that!! This is the perfect book for someone who loves to crockpot but wants their meal done in 45 min or less! I wish I was paid or given some compensation for this review , but sadly not. My aunt gave it to me years ago and my friends are always asking where to buy it.

I was so excited to get this book since i work 50 hours a week on top of being a single mom. I use my rice cooker alot and was hoping for some simple quick and cheap meals. When it arrive i was extremely disappointed at the effort and expense you have to out into each meal. I feel this book was misleading as it has very little meals for under 10 dollars and take over an hour for most recipes without alot of variety except cajun style meals. I will not be using it...

I wasn't sure I'd be able to get the hang of using rice cooker for anything but rice. But as soon as this book arrived I read it from cover to cover and could hardly wait to try his recipes. This book is a little gem. With a little imagination you can easily adjust ingredients to make your recipes more spicy, less spicy, beef instead of chicken, broth instead of canned tomatoes with chiles, less butter, etc. etc. This is a no brainer. To some people it might look too plain but that's fine with me. It's just a good, easy to follow, minimum preparation, delicious collection of recipes, some of which are typical of louisiana cooking....which is what the author himself did not dispute. I have never used as many recipes out of any cookbook I own..and I own a lot!!! I'm currently going through all the recipes but so far my favorites are Shrimp Jambalaya, Black Eyed Peas & Sausage Jambalaya, Tex-Mex Pasta, Chicken fried rice, and Mexican Rice. There are also soup recipes, yams, potato and cabbage recipes but haven't tried these yet. Mr Bertrand I'm anxiously waiting for your next cookbook, if there is one, but in the meantime thanks for this one!

Gave this to my son-in-law to go with new rice cooker I gave my daughter - they share meal cooking tasks. He thinks it will be very useful.

My latest "kick" is rice cookers. I learned you can make entire delicious meals in them, not just cook rice. This cookbook makes rice cooking/entire meals easy. It's mostly a Cajun cookbook but you'll find many delicious other recipes too. I had a question, emailed the author, and he actually emailed me back with the answer!! Recipes are for 8 to 10 cup On/Off/Warm rice cookers, not for fuzzy logic cookers. Rice cooker recipes can be made in the fuzzy logic cookers but adjustments would have to be made. I'm also experimenting using olive oil instead of butter and the author has been helpful with that. I HIGHLY recommend this rice cooker cookbook for On/Off/Warm ricer cookers.

It was handy to tell me the different types of rice and how they are cooked but that was where the helpfulness ended. The meals seemed quite involved for a book that states "Fast home cooking for busy people" and it just wasn't that helpful. I guess some people might find it useful but to me I had to do too many adaptations to find it necessary.
