# The Maya: Palaces And Pyramids Of The Rain Forest (Taschen's World Architecture)

## Synopsis

This volume retraces the development and magnificent flowering of Mayan architecture in Mexico, Guatemala, Honduras, and Belize over the period 300 B.C.-A.D. 1500. Tikal, the earliest Mayan religious center, Palenque, famous for its ceremonial center, and Copan, with its hieroglyphic staircase featuring 2500 glyphs, are among the cites featured.

## Customer Reviews

Great pictures

This excellent book from Taschen, translated from the German, deals with Mayan architecture in Mexico and Central America over the period 300BC-1500AD. Cities featured include Tikal, Palenque and Copan, the 3 most famous cities while Chichen Itza and Bonampak are well illustrated. The text is very well written and researched and there are 2 very good chronologies for monuments and historical events. A good book for any library.

This is basically a coffee table book. Nice pictures, easy text, not too deep. A good reference if you want to choose which Maya big spots you want to visit in your next vacation. It does suffer from not reflecting more recent advances on the interpretation on Maya history, such as the Toltec influence. But it is not apparently the objective of the book. This reviewer thinks that what the author wants is for you to get interested in the Maya civilization, to respond to the beauty and greatness of its art, to

give to research and protection funds... All very commendable goals but perhaps a little too weak for the more historically minded. Yet, even this last one can have a fine time reviewing this book which is always a nice reminder of the places we saw, or want to visit someday.
